

ZULUS 

Quick Start

ZULUS^{HD}

Quick Start

Congratulations on your DNT Optics purchase. Here is a simple guide that lists each of the button functions to help you understand their use along with steps to help with the initial setup of your optic.

ⓂRAV: Recoil Activate Video

IR Mode Switch Button

Main Screen -----> Long press Switches between Day & Night
Black/ White Mode -----> Short press Adjusts IR Brightness

Power Button

Short press Enters / Exits Standby
Long press Powers On / Off

Record Button

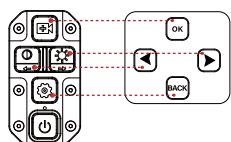

Main Screen -----> Short press Starts RAV[®] Recording (Manual Mode)
-----> Long press Starts / Ends Recording

Brightness Button

Main Screen -----> Short press Adjusts Screen Brightness
-----> Long press Wi-Fi On / Off

Menu Button

Main Screen -----> Short press Switches Reticle Color
-----> Long press Enters Menu

In the Settings Menu, the four buttons work like your TV remote

control. Use Left / Right button to move your cursor. Use the **Record Button** to select and **Menu Button** to cancel and go back.

How to connect to DNT App

STEP ①

Ensure the battery cap is tightly screwed on. This compresses the battery and prevents your optic from shutting off under recoil.

STEP ②

Power Button
Long Press 2s

A long press of the **Power Button** will turn the optic on.

STEP ③

Menu Button
Long Press 2s

Long press the **Menu Button** to open the Settings Menu.

STEP ④

Record Button
Short press
Brightness Button
Short press

Short press the **Brightness Button** to move the cursor to the "Wi-Fi", then short press the **Record Button** to enter and confirm the Wi-Fi is enabled. Confirm Wi-Fi is on by looking at the icon. Wi-Fi on (), Wi-Fi off ().

STEP ⑤

Download DNT App.

Android

iOS

STEP ⑥

Open DNT App, select "Add Device", and select ZULUS HD Digital Scope. This will open Wi-Fi Networks.

STEP ⑦

Device will display as [Device Naming Protocol]. Select ZHD[Model]_[SerialNumber]. Device Wi-Fi Password is **12345678**.

- Android Users select "Always Connect"
- Apple Users ensure "Auto-Join" is enabled
- Connection will show "Connected Without Internet". This is correct. Please return to the DNT App.

STEP ⑧

Your optic will now show "connected" in blue underneath your paired device.
